

Performance Evaluation

On an ongoing basis, our firm believes in providing constructive feedback and planning support to help you grow and move forward in your career path.

Dion Durrell conducts an annual performance evaluation process. This helps Associates understand their strengths and identify areas for improvement. It is the ideal time to express your career interests and your objectives for the year ahead. It is also the opportunity to discuss your specific professional development needs.

Our goal, once you join Dion Durrell, is to work together with you in a mutually rewarding relationship.
